Coronavirus in Rome, Conte: «Two confirmed cases are Chinese tourists. No alarms ». Air traffic to and from China closed

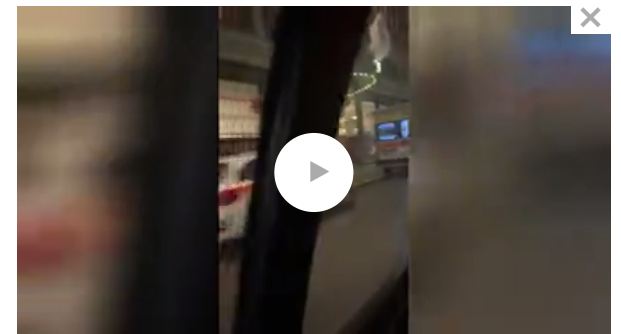

ITALY

Thursday 30 January 2020

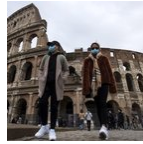

[Coronavirus](#) , first two cases in [Italy](#) . In [Rome](#) . The news that after two days of false alarms the first two cases of coronavirus also arrive in Italy at the summit in progress at Palazzo Chigi shortly after 10 p.m. "We have two confirmed cases of Coronavirus in Italy" - announced in a press

conference convened suddenly, the Prime Minister [Giuseppe Conte](#)- which also announced the closure of air traffic to and from China. The two confirmed cases are two Chinese tourists who have come to our country in recent days and who had felt ill and had been taken to Spallanzani where they had been under observation since yesterday. "Spallanzani is the Bible in this sector - said Conte - and there is no reason to create panic and social alarm. Tomorrow morning I have summoned a

Meanwhile, checks have started to reconstruct the path of the two [Chinese](#) tourists and "to isolate their passages, to avoid absolutely - added Conte - any further risk compared to that already established".

The Chinese couple hospitalized at Spallanzani is originally from Wuhan province. According to what was learned, they had arrived ten days ago, on January 23 in Milan. After some stops for Italy they arrived in Rome. Last night they felt bad and, given the symptoms they presented, they were taken over by 118 staff and hospitalized at Spallanzani.

That there could be cases in Italy too "is a fairly normal fact - said Health Minister Roberto Speranza for his part - if we think about statistics, given that in Europe there are already ten cases. It was quite probable, our scientists at the task force table had said so for some time. The situation is serious but there is no need to alarm, the situation is totally under control ». "The Italian health system is one of the best in the world - the minister said - I want to thank the doctors and nurses who also in coordination with the Regions allow us to ensure the right safety for our citizens.

moment in the line of maximum rigor in terms of prevention. We are in a position to be able to reassure all citizens. The situation is absolutely under control. But it does not mean that we are satisfying ourselves in the first measures. I am confident that the situation will remain confined ». The two Chinese tourists hospitalized in isolation, "are in good condition and this makes us think that there are no people exposed" said the scientific director of Spallanzani of Rome Giuseppe Ippolito always during the press conference at Palazzo Chigi.

The Chinese couple hospitalized at Spallanzani is originally from [Wuhan](#) province . According to what was learned, they had arrived ten days ago, on January 23 in **Milan** . After some stops for **Italy** they arrived in [Rome](#) . Last night they felt bad and, given the symptoms they presented, they were taken over by 118 staff and hospitalized at Spallanzani. The Chinese tourist couple hospitalized at Spallanzani was part of a group that had arrived in Italy for a tour. The rest of the group today was headed by bus to Cassino for a trip but, after the health surveillance procedures were taken, they were recovered by the police and escorted to **Spallanzani** . According to what has been learned, the couple had been in **Rome** for less than a week. Before arriving in the capital, once they arrived at Milan Malpensa airport, they had made some intermediate stops. The two, husband and wife, would be 67 and 66 years old.

has already been activated on people who have come into contact with the couple.

The room of the hotel in the center of Rome where the Chinese couple had been staying in the Spallanzani hospital for suspected coronavirus had stayed in the last few days. Additional preventive measures could be applied against vehicles and people with whom the couple had come into contact. During the first relief operations, police officers had also drawn up a report which was then sent to the Ministry of Health.

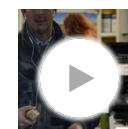

The operators of the Palatino hotel in **Rome**, where the Chinese couple tested positive for Coronavirus stayed, are waiting for another group of thirty Chinese from the same tour operator. The latter may already have undergone prophylaxis in

Ach! .. What a sudden ... emendaio intellectus !!! ... BUT - at least from what we could have known, having learned it only from the media! - it was not quite the same, our i-size, a few days ago , to land in Fiumicino as many as 209 Chinese who - as if that were not enough! - had to do precisely with that same country / locality of China, where "everything" originated, and the first outbreak of the new pandemic?! .. And this, when the rest of the world had already blocked every entrance, eh! ... Almost certainly, this really literally curious episode, perhaps has nothing to do with the new cases, detected right in Rome, of this umpteenth and chilling ... "artificial ... disease" (because of this, it is! ...), nor did it have or will have dangerous consequences, but ... to say ...how much we always manage to be truly ... "special", and in all ... "noàntri" !!! ..; _)

ma stai scherzando? davanti al Dio denaro?. La cina avrebbe interrotto i rapporti commerciali con l'Italia. Avrebbe interrotto di esportare tutta la mondezza che produce e avrebbe vietato di importare dall'Italia il meglio che abbiamo. Ma Conte ci tranquillizza, e avverte no agli allarmismi. Quando si arriverá a qualche migliaio di morti, allora forse si prenderanno misure adeguate
