#New pneumonia confirmed cases # [ # 3 new cases of pneumonia confirmed in Tianjin # ] As of 6 am on January 27, Tianjin has added 3 new cases of pneumonia confirmed by new coronavirus infection, and the number of confirmed cases has increased to 17.

Mr. Wen, male, 50 years old, lives in Hongqiao District, Tianjin. From Wuhan to Tianjin on January 23, fever occurred on January 25, and he went to the Municipal People's Hospital for treatment on January 26. The city's expert group confirmed the 15th case in our city, which was a severe case. He has been transferred to Haihe Hospital for treatment, and his vital signs are stable.

Mr. Chen, male, 78 years old, lives in Hebei District, Tianjin. Fever appeared on January 21, and went to the Tianjin Fourth Central Hospital twice on January 23 and 24. The nucleic acid test results were negative and home isolation measures were taken. On January 26, he developed fever again and went to the Tianjin Fourth Central Hospital for treatment. The nucleic acid test result was positive again. He was confirmed by the Tianjin expert group as the 16th case in Tianjin and was a severe case. He has been transferred to Haihe Hospital for treatment, and his vital signs are stable. This case was a relative of the fifth confirmed case Chen Moumou, who was a close contact.

Mr. Zhang, male, 49 years old, lives in Hebei District, Tianjin. On January 26, he developed fever and went to the Fourth Central Hospital of Tianjin for treatment. He was then diagnosed as the 17th case in our city by the Tianjin Municipal Medical Treatment Experts Group and it was a mild case. He has been transferred to Haihe Hospital for treatment, and his vital signs are stable. This case is the fifth confirmed case of Chen Moumou's colleague, who is a close contact.

As of now, a total of 17 cases of pneumonia due to a novel coronavirus infection have been diagnosed in Tianjin, including 12 men and 5 women; 13 cases of severe cases and 4 cases of mild cases; and no critical cases and deaths. 178 cases of close contacts were tracked, of which 5 have been diagnosed, 2 have been released from medical observation, and 171 are still receiving medical observation. Liu Fugui Miracle

23? ? ? ?

millaaaaaaa : from Tianjin, not from Wuhan

Dimples of Park Natto : Don't say anything, these Hebei Railway Districts in Tianjin are railway workers. No one ran out ❤️ ,

Comment

Lucky man

Come out on the 23rd really ...

Wuli Lian : People live in Tianjin. Maybe they come back to Wuhan after the tour, but others do n't live in Wuhan. Will you keep him open the hotel if you do n't come back? Really is

Lucky Weng Weng : The 23rd is the time to close the city, don't want to say anything else

I think the bat is really innocent. He has done his best to not look like an ingredient. 🙏 If Chinese horseshoe bats can speak Chinese, it is estimated that "who eats who believes in ball" will evolve to the face.

Komaki Dear Dad : Instead of eating bats, it may be that game eats sick bats, and people eat game again.

Boiled small bowl noodles : looks like medicinal herbs 🍲

23rd from Wuhan? It was the group who fled before closing the city! !!

Memorialrose : Can't say to flee. People bought a ticket on the 23rd a month in advance, and if they left that day, they may not be fleeing.

Is it so arrogant : Spring Festival tickets are so tight, it 's okay to grab one week in advance, okay, this person has already bought a ticket to return home

月读男孩

大家要相信 SARI 病毒不是 G 病毒。大家得了不会变丧尸,只要还不是丧尸,大家都要保持理智和冷静,就要用脑子思考问题。要相信武汉不是浣熊市,这里最后的结局是我们战胜病毒,而不是病毒战胜我们,或者被一颗核弹给轰平。

心心11念念:SARI病毒?你给命名的?说了是谣言,你就叫它新型冠状病毒就行

椰椰椰耶:我还Siri呢😂

橘遥-

放过天津吧 我们就是一小直辖市 经济也不算发达 本本分分待着本来嘛事儿也没有 武汉患者能不来吗😂😂

可爱又迷人的阿鹿老师:天津的经济真的不太行了 和杭州啥的差远了 唉 可怜的天津卫

你是我专属Lxt: 直辖市就4个。经济是不太发达,就是财政收入全国第四。但是天津确实退步了,这种情况别扯东扯西的,谢谢你。

天津这个报得好具体，是不是每个省都该这么报，大家知道疫情发展情况。

H\_Y\_L\_X\_E\_N\_A:第五第六例报的时候什么都没写，当时被骂惨了

步行者233回复@H\_Y\_L\_X\_E\_N\_A:你们真好，这么清楚大家都不会慌，很多省报的根本不知道具体在哪里，也不知道是输入的还是后来传染的。感觉你们0报告有希望

五好的美少女

所以可能先阴后阳??

小飞51732168:不是，是本来普通感冒(阴性)，后来接触了冠状病毒携带者，传上了才变的(阳性)

寒武纪遗少

[Emergency proliferation! Anxious to find the 30w compatriots on the day of Wuhan's closure on January 23] On the 23rd, the Wuhan authorities announced that the city would be closed at 2 am. Within 8 hours of the notice period, you escape from Wuhan! The epidemic in Wuhan on the 23rd was very serious. Your infection probability is extremely high. Your incubation period is February 8! The state requires work on February 3! Please report you to the government department where you are now! Avoid reinfecting those returning to the first-tier cities in Beijing, Shanghai, Guangzhou and Shenzhen.

Cambrian legacy : escape on the 23rd: This disease has a latency period, and it can be transmitted during the latency period!

Don't hurt your parents and children, please take the initiative to report your situation to the local public security bureau or medical institution! You ink again, and as soon as construction starts on February 3, Beishang Guangshen will be infected again, and the consequences will be disastrous!

Migrant workers who can't get hard-earned money

Now the most important thing is that you can't buy masks everywhere. In my home, even a mask is not available. How to prevent it. the most important thing for the country now is to call for more factories to build masks. It is

wudihongjing : 1.4 billion people in China. Even if all factories work 24 hours, how many people do you think can provide?
