[ #上海第一例定证的新冠肺炎病 Patient cure # ] Shanghai Municipal Health and Medical Commission will report tonight: Chen, the first case of pneumonitis infected with a new type of coronavirus in Shanghai, was scientifically guided by an expert team after admission, and was carefully diagnosed and treated by medical staff. The condition has gradually improved, and the body temperature has been normal for 6 consecutive days. The respiratory symptoms have improved significantly. The pulmonary imaging showed significant absorption of inflammation. The two new types of coronavirus nucleic acid tests were negative. After evaluation by the expert group, they met the latest new coronavirus infection of the National Health and Health Commission The standard for isolation and discharge of confirmed pneumonia cases has been cured and discharged today.

The patient was a female, 56 years old, and lived in Wuhan for a long time. On January 10, he developed fever and fatigue in the local area. He arrived in Shanghai on January 12 and was treated in a hospital in Shanghai on the evening of January 15. The review and testing and expert evaluations organized by the National Health and Health Commission confirmed that it was the first confirmed case of pneumonia in Shanghai with a new coronavirus infection.

有只小星蛙

武汉的人想来上海可以理解，毕竟医疗水平高一点😂但是球球那些武汉来的人到上海了别到处乱跑好吗，到医院检查一下，做好防护，没问题再出来乱跑好吗😂你现在没症状不代表你没得啊，现在已经屯了好几天的口粮了，准备这几天都不出门了😂

治疗方案能说下吗？后遗症能说下吗？这个时候宣传这个为了维稳？不怕大家放松警惕，病毒蔓延吗？

10号就发热，12号抵沪？我不想随意揣度人心，但是还是想说一句，为了自己和他人的生命安全，请谨遵国家指示，尊重生命。
