新 pneumonia confirmed cases # [# 天津 confirmed diagnosis increased to 10 cases #] The reporter learned from the Tianjin Centers for Disease Control and Prevention that at 16:00 on January 25, 2020, Tianjin added one new confirmed case of pneumonia infected with a new coronavirus. The number of confirmed cases increased to 10.

The 10th patient, Hu Moumou, male, 30 years old, was born in Beijing. He stayed in Wuhan from January 18th to 20th. When he arrived in Tianjin on the 24th, he developed fever and went to Tianjin Hospital for a fever clinic. The 10th case was confirmed by Tianjin expert group at 16:00 on January 25 as a mild case. He has been transferred to Haihe Hospital for treatment, and his vital signs are stable.

At present, a total of 10 cases of pneumonia infected by the new coronavirus have been found in Tianjin, including 7 males and 3 females; 7 severe cases and 3 mild cases; and no critical cases. 85 close contacts were tracked, 2 were released from medical observation, and 83 were still receiving medical observation.

Everyone pays attention to sanitation workers, daily contact with garbage, especially abandoned masks, etc. I hope that they can be provided with the necessary basic materials such as masks. There are also many empty nest elderly people, hoping to be taken care of by the relevant areas! !!

In Tianjin, because only the places with large palms are densely populated, every occurrence is very nervous.

Day Flight Cycle

Pay more attention to the sanitation workers. Every day they come in contact with garbage, especially abandoned masks, and so on. I hope they can provide them with the necessary basic materials such as masks. There are also many empty nest elderly people who hope to get the care of relevant areas! !!

强烈建议政府延长春节假期半个月，各自在家自行隔离14天观察是否有发热症状，一旦有问题抓紧去发热门诊机构救治，从源头上杜绝后患，不做病毒的搬运工，错开返程人流高峰期，人群一动后果不堪设想🙏

名人所長

可以把春节假期都适当延长嘛？现在的情况确实不容乐观更何况之后呢？高三和大学生数量庞大且过几天就要开学，一旦开学又是人口集中 就不怕出现大规模的群体感染吗？之后的假期像五一国庆或暑假都可以适当减少，相信只要不改的离谱大家一定可以接受的！今年注定是一个特殊年，我们要团结起来共渡难关！
