[#Liaoning added 1 new case of confirmed pneumonia] According to the Health and Medical Commission of Liaoning Province: Today, Liaoning has added 1 confirmed case of pneumonia due to imported new coronavirus infection. The female patient, 50 years old, worked on the Shenyang-Wuhan high-speed rail and returned to Shenyang from Wuhan with the high-speed rail on January 15. He was treated at a clinic in Shenyang for symptoms of pharynx on January 16; he was admitted to a certain hospital in Shenyang on January 22 and was admitted to hospital for isolation and treatment. At present, the patient's symptoms are stable, and 37 of his close contacts are under medical observation.

As of 11:00 on January 23, Liaoning Province had reported 3 confirmed cases of pneumonia due to new coronavirus infection. At present, all three patients are treated in isolation at designated hospitals, and their condition is stable. All close contacts were medically observed. (CCTV reporter Li Chengze)

If you are from an epidemic area, you have been to Wuhan, or you have come back from Wuhan. Try not to contact others, and continue to observe your health for 14 days! Please consciously observe at home for 14 days! This is a realization, it is also a responsibility, and it is also about the health of you and your family! Thank you!

Do not test well, do not rename mm

I beg you to call for not to go to relatives this year. Everyone meets every year. It 's really not bad. There is almost no preventive measures against information occlusion in this year's older generation. Can you send down some documents at a level? To the specific township! 🙏🙏🙏🙏🙏

I woke up in the morning and closed the city in Wuhan. I saw a reply on Weibo: "My city is sick, but we will cure her, and you are welcome to come to Wuhan in the future." A sore nose did not hold back ... !!

如果您来自疫区，您曾到过武汉，或接触过从武汉回来者，尽量不去接触别人，持续观察自己的健康状况14天！请自觉居家观察14天！这是一种觉悟，更是一种责任，也关乎您和您家人的健康！谢谢您！

养農上瘾

在新型肺炎面前，不管它是否严重，我们也应该阻止它传播，我们的不怕死行为（不戴口罩、去人员密集的地方等），是对医护人员最大的伤害，每增加一位疑似感染者，就对医护人员增加一分伤害，我们会把医护人员慢慢推向死亡。不戴口罩其实是一种谋杀医护人员行为...请大家挺住！一起加油！

天啊 在高铁上工作请务必戴口罩啊!!!

Please do n't be lucky, even if you think that your city is a small sideline, think that you will not be infected like this. But you never know where passers-by walking by come from and who they have contacted. Any patient infected with the new type of pneumonia did not know that he would be infected before he became infected. You

Small high flying high

The plane from Dalian returned, and the first from Shenyang was also from the plane. This aunt was infected by the high-speed train. How did she get it? Did someone from Wuhan get on the train? Where is the subject of the infection?
